

Avalon Glass Works can turn your new or existing cabinets into a true expression of architectural beauty.

We take great pride in providing superior handcrafted works of stained glass art.

Our extensive experience allows us to offer ten historic design styles that may be customized to your new or existing cabinets.

Wendy Wilson, craftswoman & owner

General Information

When selecting a design compare the size and shape of glass wanted with the size and shape of your door. Pricing is based on the glass selected and complexity of design. Each glass door insert is made to measure and will be delivered to your cabinet shop for insertion into the final product.

Ours is a three-phase process.

- **Proposal**

Exact measurements are taken for your project. You select the design, colors and style of glass.

- **Preparation**

Your selected design is patterned to the exact measurements; the glass is then cut and laid to pattern.

- **Completion**

Your glass inserts are constructed and delivered to your cabinet supplier for installation

Standard glass selection is made from a variety of our most popular textures and colors. Custom ordered glass, bevels, etched glass and other specialized elements are available for any project and are priced separately.
